The hotel is to be called the Atlantis. The first building will be 260x 260 feet in size, and it is expected will be ready for occupancy by next season. It is expected that the lighthouse part of it will be in use by next fall or win-

The building, it is said, will have an enormous half, which will contain many thousand people, and there will be rooms for many guests. The fact that the hotel, if it should really be built, is just beyond the limits of the United States, has given rise to a good deal of Manufacturers of speculation. In conversation with a New York Sun reporter recently a sporting man said:

"This thing may be a sanitarium, for all I know, but it strikes me that big arena there would be a mighty good place for a prize-fight. Prize-fighting is getting to be up-hill work nowadays, with the increasing stringency of the laws, and if people will travel thousands of miles from New York to see a good fight they could afford to put up liber-WE ARE STILL IN THE PROCESSION, miles from home. There is a deep sus picion in my mind that in the penal code of Atalantis there will be no penalties attached to the participation in or management of boxing exhibitions."

"Now here's another consideration. In a few years there wont be a big open gambling place anywhere. Monte Carlo's franchise runs out in a few years and then the man who makes his living breaking that bank will have to go to work unless a new place is found. A place like Atalantis, that will run itself to suit itself, would be a pretty good sort of spot for the location of a new Monte Carlo. Don't understand me as meaning that the men who are behind all this intend to put their island to any such use. I know some of them, and I don't believe they are the kind of FERTILIZERS men who would care to go into that business, even though it would pay tremendous profits. But what if they get an offer from some man so great that

it would be folly to refuse it?" Not less interested than the sporting men are the lawyers and politicians The latter see in the new nation interesting political complications: new postofile and customhouse arrangements, possibly, and, if Atalantis is successful, the possibility of scores of the retultural and seed warehouse 117 King st. 22 Correspondence solicited. feb22 by a corresponding multiplication of offi-ces.
